Sri Dhanalakshmi Foundry

<https://www.dlfpumps.in/>

Our company has earned great laurels as manufacturers, suppliers and exporters of immense range of Agricultural , Domestic , Industrial and Wast Water pumps.

About Us

Established in the year **1970**, we, "**Sri Dhanalakshmi Foundry**," is engaged in manufacturing, supplying and exporting a wide range of Turbine Pump, Submersible Spare Part, Air Compressor Spare Part and many more. These products are highly appreciated due to their supreme quality and hassle free performance. The products offered by us are highly demanded by various industries. These are highly efficient, corrosion resistant, sturdy and durable and are certified by ISI. We also offer customization on our products as per the specification detailed by clients. We are a sole proprietorship based company engaged in offering world class quality products to customers. We export up to 205 products to various countries across the world. Our products are highly appreciated amongst the customers due to their high and hassle free performance in various suitable applications. We initiated with our company in the year 1970 and in the year 1982, we started our foundry division. The exports were started in the year 1991 after being certified by ISI. It is due to our latest technology and team of highly experienced professionals that we have been able to succeed in our growth. Our quality experts ensure the quality of the products by conducting various tests. By offering a range of about 700 types of water lifting pumps and motors, we are able to cater to industries like beverages, brewery, confectionery, ice cream, paper, plastic and pharmaceuticals. With wide industry...
